

# Can't We Just Be Man And Wife

(for one more night)

© 2011 Will Stanley

I know we're through, no more me and you  
You say you've had enough  
Of all that stupid stuff  
But before I go  
Out into the cold  
Can't we just be man and wife, for one more night.

We had so many happy times, I thought they'd never end  
And one more really couldn't hurt, though I know it won't make amends.

So please say yes  
And take off that dress  
So we can be man and wife, for one more night.

Instrumental

I must say I don't see just what I did wrong  
But anyway I won't stay anywhere I don't belong

But my love burns bright  
At least let's end this right  
Let's just be man and wife, for one more night.  
Why not be man and wife, for one more night  
Can't we just be man and wife, for one more night.
