

Conspiracy

© 2008 Will Stanley

The Apollo landings were all a fake
The military causes earthquakes
Aids was created in a test tube
Drugs that cause ED are in our fast food

The case was never solved, of those fateful Dallas shots
Not Oswald, it was a CIA plot

It's a conspiracy, can't you see?
Things aren't what they seem
Trust my theory
Conspiracy

The world is ruled by a lizard race
The Holocaust never took place
Someone made, the princess die
Everywhere you look are world government spies

Roswell NM is the place to be
To perform an autopsy on ET

It's a conspiracy, don't you see?
Nothing is as it seems
The post-modern philosophy
Conspiracy

Why not take a good hard look at all the time we waste
Finding facts to prove it could be so
We might just be better off if our obsessions could be erased
And we'd be free to let our scapegoats go.

Instrumental

Big oil destroyed the 1000 mile a gallon car
All diseases could be cured with sonar

It's a conspiracy, don't you see
You can't believe what you see
They disguise reality
It's a conspiracy, can't you see?
Things aren't what they seem
Just trust my theory, Conspiracy.
