

Good Friends

© 2016 Will Stanley

Life can surely make you
Sad and blue
But not if you've got good friends
To see you through
They pick you up when you're feeling down
And take you out to have fun on the town
When you need a helping hand with a chore
Or someone to grab a tool for you at the store
You'll find them weekdays and weekends
They're your good friends.

When your love life is quite the mess
They'll be at your door to relieve the stress
They always know just what to say
To show you that this too will blow away
And if you can't decide how to proceed
They'll let you choose yourself, then help you succeed
Their support pays big dividends
They're your good friends.

They're hard to make
But they never break
They stick by your side
When you're dissatisfied
They'd do anything for you.

Instrumental

You may not see
Them for years
But it's like old times
After just 2 beers
They'll do anything for you.

Instrumental

Tra-la-la-la-la-la.....
They'll always sing along with you
Even if they can't sing a note that's quite in tune
That's why you always miss them so much
Cuz when they're around, they're your favorite crutch
Some folks say that you are like bookends
They're your good friends.
They'll be there weekdays and weekends
Cuz they're your good friends.
They're your best friends.
They're your good friends.
