

I Always Knew

© 2015 Will Stanley

Sometimes it must seem I'm just a blow hard
Explaining things I know nothing about
But there is one thing that it is near to my heart
And it's something I know inside and out.

Before you even knew me, you were my dream
It was clear to me, what I was going to do
And that is succeed in making you love me
You may not think it's true
But I always knew.

You're the sweetest one I've ever known
And I'm so glad you're my girl
And over the years, as our love has grown
I've watched you become my whole world

So when you hear me running my mouth
Saying that I've known from the very first view
That you were the one, I wanted for a spouse
Don't say that it's not true
Cuz I always knew

Go ahead ignore me when I'm spouting bout sports
Or pretending I understand technology
The reality is except for words and chords
I'm an expert at mediocrity.

So please don't belittle the one place I stand out
And that's knowing this one fact through and through
That you were made for me, which I never did doubt
You may not think it's true
But I always knew.
