

Let's Let It Go

© 2004 Will Stanley

We had our first fight last weekend,
And things just haven't been the same since then.
I spend my nights at other bars,
And not the ones we designate as "ours"
My stars!

Let's let it go, let's stop this show
I can't stand your being gone one minute more
We can pretend that we don't care
And stick our noses in the air
But I hope the time has come to let it go.

Every road has got its bumps
And I'm sure that we will take our share of lumps
If we take our ball and head on home
To show that we'd do just as well alone
That's wrong.

Let's let it go, let's stop this show
I can't stand your being gone one minute more
We can pretend that we don't care
And stick our noses in the air
But I hope the time has come to let it go.

I know for sure that you're the girl for me
And I called, cuz I hope that you can see
That we're well on our way
To a brighter day
If you will join with me and say

Let's let it go, let's let it go
I can't stand your being gone one minute more
Let's stop pretending we don't care
And pull our noses out of the air
Cuz I'm sure the time has come to let it go.
And I know the time has come
To let it go.
